# GO WITH TOP QUALITY NO MATTER HOW LITTLE THE COST

Sometimes budgets won't allow you to spec anything beyond what is absolutely needed. But that's no reason to settle for anything less, either. Contender® DX pumpers and tankers are the logical solutions. Because they're Contenders® by Pierce, you already know no compromises are made. But what you probably don't know is that they're available for immediate delivery and carry a very attractive price.

## DX PUMPER

You want a fire truck that's ready to go, and one that has years of getting-it-done built into every feature. You want simple operation. You want the options you need to get the job done. And you never compromise on quality because your community demands nothing less.

The Contender DX pumper features a 152-inch body length, which is engineered to provide a full depth compartment in the lower rear side for storage of larger equipment such as exhaust fans. The efficient design delivers an extra 21 cubic feet of storage space.

### STANDARD CHASSIS FEATURES

- Three-man bench seat, two (2) door chassis
- Air Driver, SCBA Officer and three (3) crew cab SCBA seats four (4) door chassis
- SCBA air bottle brackets in seats four (4) door chassis only

- Standard Pierce body and paint warranties
- 10-year limited piping warranty (includes stainless steel piping, brass fittings and valves)

## DX TANKER

### STANDARD CHASSIS OPTIONS

- 2100-gallon, Kenworth T370, single rear axle, with PTO pump
- 2100-gallon, Kenworth T370, single rear axle, no pump
- 3000-gallon, Kenworth T370, tandem axle, with PTO pump

The Contender DX tanker offers the new Pierce exclusive 10" directional dump valve/chute assembly that offers more than a 1600 gpm flow — no more worrying about what direction you're facing when pulling up to the scene. With a low center of gravity (reducing side rolls), the DX tanker allows pump and roll, and is extremely stable — proven up to 28 degrees static side slope on a tilt table.

The DX tanker comes with compartments ahead of the rear axle(s) on both sides, has a 5-year limited warranty on the PTO and portable pumps, and a 360 hp engine. The tank, designed specifically for Contender, is constructed of polypropylene with a water compartment baffling system that reduces the surges that can destabilize your vehicle.

Pierce's exclusive rear 10" tank dump with manual valve and 90-degree directional elbow.

### STANDARD DX TANKER FEATURES

- Wide body polypropylene water tank (2100 or 3000 gallon)
- Aluminum compartments ahead of rear axle(s) both sides
- Portable tank compartment integral to water tank
- Hard suction hose storage integral to water tank
- One (1) 2.50" direct tank fill at rear
- Rear 10" tank dump with manual valve and swivel chute
- Fire Research Auto Controller
- Whelen LED NFPA lighting package
- 6" white Scotchlite stripe
- Pierce® #90 red paint
- 500 gpm Darley PTO pump
- Two (2) Speedlays with removable trays
- Two (2) 2.50" discharge outlets on the driver's side
- One (1) 2" tank refill line

### AVAILABLE OPTIONS

- Hosebed
- Hosebed divider
- Reel package
- Hard or soft suction hose
